Linux Magazine ISSN 1471-5678
Linux Magazine is published monthly by Linux New Media Ltd, Manchester, England. Company registered in England.

New Tech

This month, we open the door to some promising new technologies, including facial recognition and the semantic web.

16 Apache Jena
Create, process, and analyze semantic data with the Jena platform.

24 ZFS
This innovative filesystem integrates RAID and volume management.

30 Facial Recognition
digiKam and libface bring facial recognition to your desktop.

Community Notebook

86 Cache
What was your first Linux?

87 Doghouse
A new software business model.

88 Kernel News
Kernel community news.

90 PyCon
Pythonistas meet in Atlanta.

91 Linux New Media Awards
2011 awards for the best in Linux.

92 Projects on the Move
Three open hardware projects.

HIGHLIGHTS

16 APACHE JENA
Build meaning into your site with Apache Jena and the semantic web.

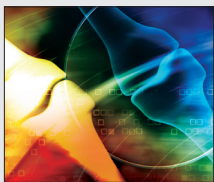

30 FACIAL RECOGNITION
Experiment with facial recognition using your personal photos.

38 LINUX OEMS
We round up some options for pre-installed Linux computers.

78 DARKTABLE
This nifty darkroom kit provides editing tools for manipulating your RAW files.

FEATURES

45 OpenCL
Use your graphics processor and OpenCL for parallel processing problems.

52 Blender: Rig & Pose
We show you how to build, constrain, and control a skeleton so you can pose and animate your Blender models.

42 Ask Klaus!
Your Linux questions answered.

57 Charly: tcpflow and HugeURL
From the ridiculous to the sublime – or vice versa. Summarize your network traffic and make really big URLs.

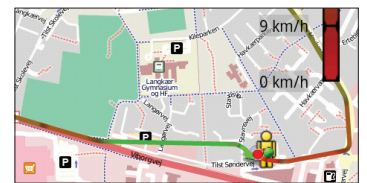

58 Security Lessons: Bufferbloat
Too many buffers adds to Internet latency, keeping your time-critical jobs from executing properly.

60 Perl: OpenOffice Label Merge
This Perl postal project uses XML, XPath queries, and OpenOffice templates to print mailing labels.

66 Sentinella
Not too little, not too much; this vigilant sentry is just what you need for automatic monitoring of resources on your KDE desktop.

LINUXUSER

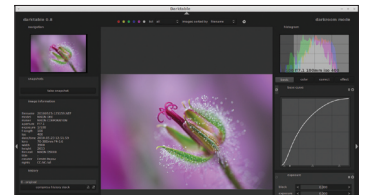

68 Workspace: GPS Tracking and Geocoding
Open GPS Tracker, GPS Photo Correlator, Geotag, and Prune.

72 Quassel
Chat with this flexible IRC client.

76 Hotot
Post text messages from your netbook with this microblogger.

78 Darktable
This photographer's tool helps you manipulate RAW files.

82 Command Line: abcde
This handy command will rip CDs to your favorite format.

Ultimate Distro Toolbox

Includes:
Linux Mint "Debian," PCLinuxOS "Gnome," Sabayon Linux "E17," Puppy Linux, Parted Magic, Zenwalk Core, and IPFire

Ultimate Distro Toolbox

- Includes:
- Linux Mint "Debian"
 - PCLinuxOS "Gnome"
 - Sabayon Linux "E17"
 - Puppy Linux
 - Parted Magic
 - Zenwalk Core
 - IPFire
