Zack Brown reports.

### 92 Projects on the Move

PayPal Donate button is for registered charities only. We also explore text-to-speech developments in open source.

### 95 ApacheCon

ApacheCon 2010 conference report.

## HIGHLIGHTS

**32 CAINE**  
Find traces of intrusion with this Ubuntu-based forensic distro.

**36 WEBM**  
Meet the license-free video codec VP8 and the supporting WebM container.

**72 DATA CROW**  
Manage all of your collections with a single Java-based open source tool.

**80 IMGSEEK**  
Group photos, edit images or metadata, and search your albums with imgSeek.

## FEATURES

**42 Home Theater**  
Control your home theater receiver through the RS-232 serial port.

**46 Indexed Searches**  
Libferris combines indexes from multiple devices for a unified search.

**32 Caine**  
Uncover the scene of the crime with this forensic distro.

**36 WebM and VP8**  
Google's open source codec.

**39 Charly: SPL**  
The Shakespeare Programming Language.

**40 Security Lessons: Passwords**  
Password management tools.

**52 LessFS**  
A deduplicating filesystem saves space on your hard drive.

**56 Ask Klaus!**  
Knoppix creator Klaus Knopper tackles garbled desktops, misbehaving cursors, and PDFs.

**60 Perl: iCalendar**  
Consolidate events from your calendars and send yourself reminders.

## LINUXUSER

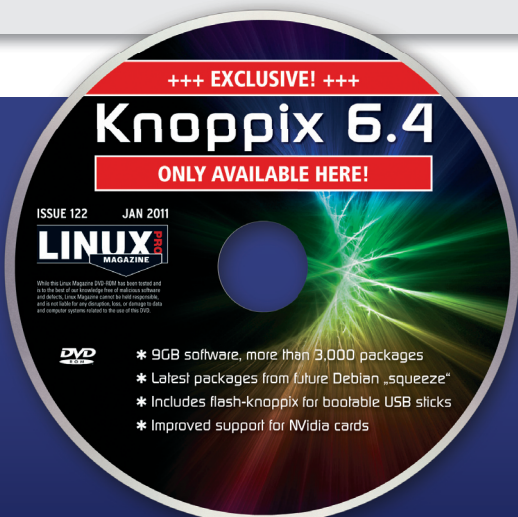

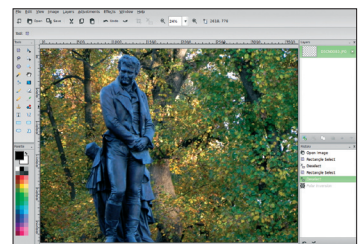

**66 Workspace: Sironta**  
This collaboration tool integrates tightly with OpenOffice.org.

**72 Data Crow**  
Customize this collection manager to handle all your goodies.

**76 Command Line: XRandR**  
Manage your graphical displays with the XRandR command-line tool.

**80 imgSeek**  
Search and manage large collections of images.

**84 Pinta**  
If you're GIMP-challenged, try the Pinta image editor instead.
