Linux Magazine ISSN 1471-5678
Linux Magazine is published monthly by Linux New Media Ltd, Manchester, England. Company registered in England.

In the Clouds

Bring it on – the cloud wants to ease your burden. We show you how to measure website performance, how to create virtual appliances, and how to build a cloud game server.

16 Load Testing the Cloud

Know which numbers matter when you measure performance.

20 BoxGrinder

A virtual appliance manufactory.

26 Building a Cloud Game Server

Don't hog the home bandwidth; run your games in the cloud.

Community Notebook

86 Doghouse: Accessibility
maddog looks at some computer accessibility issues.

88 DevOps: Automated Clouds
Develop for and administer distributed computing with Juju and Nodeable.

92 Kernel News
Binary-only modules, kernel.org security, remounting disks, Pohmelfs distributed filesystem, and isolated drivers.

94 PyCon 2012
Robots, PyPy, and more.

HIGHLIGHTS

38 SEARCH ZIPS AND TARS

Search your compressed files and archives.

44 KEXI VS. GLOM

Create your own database with these two terrific tools.

62 MULTISYSTEM

Load a USB stick with your favorite operating systems, then choose your distro on bootup.

78 FORK CMS

You don't need to be an expert to create and manage a website with Fork CMS.

FEATURES

70 Mozilla Popcorn

The Popcorn media toolkit uses HTML5 and JavaScript to pull content to your web page from diverse sources.

36 SPDY

Google unveils a new protocol for speeding up the web.

38 Searching ZIPs and TARs

Look into compressed and archived files with standard Linux tools.

44 Kexi vs. Glom

These lean and easy tools let you into the database game.

50 Ask Klaus!

Your Linux questions answered.

52 Environment Modules

Bring order to compiler and library chaos on your cluster with environment modules.

59 Charly: Weather Page

Decode the output from a weather station and create a personal weather web page.

60 Security Lessons: Cloud Security

Audit and secure cloud systems with the OpenSCAP and Aqeduct tools.

62 MultiSystem

Everything tastes better on a stick, including your favorite virtual operating systems.

66 Perl: Evernote and GTD

With Evernote and Perl, you can send reminders from your Getting Things Done tickler file.

LINUXUSER

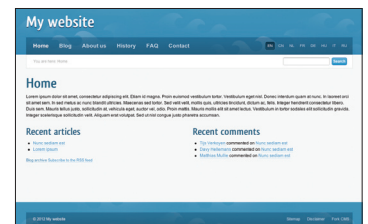

74 Command Line: Resources

Tour the top references for command line information.

78 Fork CMS

Don't sweat the big content management systems; use Fork CMS.

82 Workspace: easybook

Publish your manuscript.

The easiest desktop Linux ever!
